The validity of this certificate and the list of product groups covered by the certificate shall be verified on (info.fsc.org). This certificate itself does not constitute evidence that a particular product supplied by the certificate holder is FSC certified [or FSC Controlled Wood]. Products offered, shipped or sold by the certificate holder can only be considered covered by the scope of this certificate when the required FSC claim is clearly stated on sales and delivery documents. This certificate is the property of AENOR, and therefore the certificate and all copies or reproductions of it must be returned or destroyed on request. This certificate is issued by AENOR CONFIA, S.A.U., accredited by ASI NA for certification against voluntary sustainability standards (ASI-ACC-046)

This document depends on the Certificate with the number AEN-COC-000401 and its validity is conditioned to that of the certificate that is quoted. The validity of this certificate and the list of product groups covered by the certificate shall be verified on (info.fsc.org). This certificate itself does not constitute evidence that a particular product supplied by the certificate holder is FSC certified [or FSC Controlled Wood]. Products offered, shipped or sold by the certificate holder can only be considered covered by the scope of this certificate when the required FSC claim is clearly stated on sales and delivery documents. This certificate is the property of AENOR, and therefore the certificate and all copies or reproductions of it must be returned or destroyed on request. This certificate is issued by AENOR CONFIA, S.A.U., accredited by ASI NA for certification against voluntary sustainability standards (ASI-ACC-046)

STATEMENT OF COMMITMENT

FOR FSC® CHAIN OF CUSTODY FSC-C164909

GRUP GIRÓ Management has decided to implement a Chain of Custody Management System pursuant to the requirements of the FSC-STD-40-004 ES international standard for Chain of Custody Certification for products manufactured by the group.

The FSC® chain of custody system implemented describes all the management and production requirements to control the chain of custody, labelling and sale of FSC® certified products and involves the evaluation of forest products from the tree to the final product, including all processing, transformation, manufacturing and handling stages, therefore verifying that the materials of forest origin used come from sustainably managed forests.

GRUP GIRÓ declares that it is not directly or indirectly involved in the following activities:

- Illegal logging or trade in illegal timber or forest products;
- Infringement of traditional and human rights in forestry operations;
- Destruction of high conservation values in forestry operations;
- Significant conversion of forests into plantations or other uses;
- Introduction of genetically modified organisms in forestry operations;
- Infringement of any of the ILO Fundamental Conventions, as defined in the ILO Declaration on Workplace Fundamental Principles and Rights, 1998, specifically:
 - It does not prevent workers from freely associating, electing their representatives, or collectively bargaining with the company.
 - It does not use forced labour.
 - It does not hire workers below the legal minimum age of 15 years, or below the compulsory schooling age, if this is higher.
 - It does not impede equal opportunities and treatment for the organization's staff.
 - The working conditions do not endanger workers' health or safety.

GRUP GIRÓ also declares its commitment to its workers' occupational health and safety.

Management makes all the human and material resources required to meet these objectives available to the system.
